

EASYFIX SPIRIT

EASYFIX Spirit has bee-hive like compartments to maximise the distribution of the sand in the cubicle with deep litters system.

SLOPING PROFILE

The profile sloping towards the front allows cows to stand up and lie down easily.

ADVANTAGES	CHARACTERISTICS
<ul style="list-style-type: none"> • It maximizes the distribution of the sand in the deep litters of the cubicles. • It is Ideal for the use of sand or organic material for litters (sawdust and/or straw). • It is suitable for D.I.Y. type installation. • No maintenance necessary. 	<ul style="list-style-type: none"> • Bee-hive type compartments. • Profile sloping towards the front of the belt guarantees a greater depth of sand. • Natural rubber compound. • Semi-closed cells for guaranteeing that the belt remains in position.
DIMENSIONS	GUARANTEE
